SUMMARY

Software Developer with **5+ years of experience** in **PHP** and the **Laravel Framework**, specializing in developing scalable web applications and RESTful APIs. Proficient in **MySQL**, **React.js integration**, **Docker**, **Git**, and third-party API integration. Strong problem-solving skills with experience collaborating in Agile teams to deliver high-quality software solutions.

SKILLS

- ✧ React.js, Next.js, HTML5, CSS3, Bootstrap, Javascript
- ✧ PHP, Laravel, Node.js, Express.js, RESTful APIs, API Development.
- ✧ MySQL & MongoDB
- ✧ AWS, Docker, Deployment Automation, CI/CD
- ✧ Git, GitHub, Postman, VS Code, Copilot Agent.
- ✧ Agile, SDLC, Unit Testing, Code Reviews, Performance Optimization
- ✧ Linux, macOS, Windows

WORK EXPERIENCES

Software Developer | Renfos Technogies | Jul 2020 – Apr 2021, Apr 2024 – Jun 2026

- Designed and developed RESTful APIs for mobile applications and React.js front-end applications.
- Built and maintained scalable web applications.
- Optimized complex MySQL queries to enhance application response time and database efficiency.
- Collaborated with cross-functional teams throughout the software development lifecycle, including development, testing, deployment, and maintenance.
- Containerized applications using Docker to ensure consistent development and deployment environments.
- Managed source code using Git and followed version control best practices.

- Worked with DevOps processes, including deployment, environment configuration, and CI/CD support.
- Participated in code reviews and followed coding standards to ensure maintainable, high-quality code.

PHP Developer | Logiceil Technologies | May 2018 – Jul 2020

- Developed a web application using Laravel, MySQL.
- Integrated third-party APIs and implemented secure Authentication and authorization mechanisms.
- Optimized backend logic and database operations to improve application performance and reliability.

PROJECTS

RealtiPro – Real Estate CRM Platform | Developed a scalable real estate CRM platform for property management using React.js, Laravel RESTful APIs, and MySQL. Implemented core CRM functionalities, property listing management, customer relationship workflows, and integrated an AI-powered virtual assistant (Ria Chatbot) to enhance user engagement and support.

B2Care – Home Meal Service Platform | Contributed to the development of B2Care, a home meal service platform designed for NDIS and Support at Home participants in Australia. Built features that enable users to discover, compare, and order meals from trusted meal providers through a secure and user-friendly interface.

Munchtime – Food Delivery Application | Developed a comprehensive food delivery solution consisting of a customer mobile application, a Laravel-based admin panel, and RESTful APIs. Implemented order management, restaurant management, user authentication, and real-time delivery workflow features.

Mobisafe – Fitness Certification Mobile Application | Developed the Laravel-based Admin Panel and RESTful APIs for the Australian Government's Cruise Fitness Certification platform. Implemented secure user authentication, certification application management, document handling, workflow automation, and role-based access control.

PropCRM Website | Designed and developed a responsive website for the PropCRM platform using React.js.

EDUCATION

Master of Computer Application (69%) | KMCT College of Engineering, Calicut (Calicut University) | 2013.

BSc. Computer Science (76%) | MES College, Vadakara (Calicut University) | 2010.
